KimAI Design

Unleash your creative power in minutes:

Step 1: Open KimAI Design
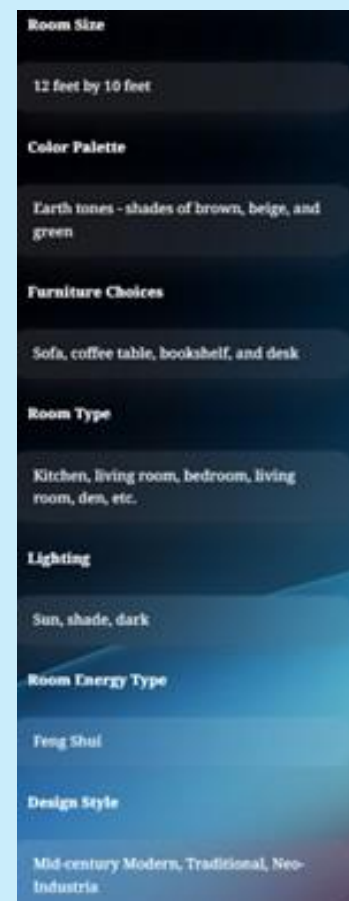

- Launch the KimAI Design app on your device.

Step 2: Capture or Upload a Photo

- Tap the "+" button to take a new photo or upload an existing one of the room you want to design.

Step 3: Define Your Room

- Enter the room type (e.g., kitchen, living room).
- Select the energy type (e.g., Feng Shui).
- Choose the design style (e.g., Mid-century modern, Traditional).
- Input furnishings (e.g., pictures, lamps).
- Specify the room size (e.g., 12 feet by 10 feet).
- Select the type of lighting (e.g., sun, shade).
- Enter the color palette (e.g., earth tones).
- Mention any famous designers you admire.
- List the furniture choices (e.g., sofa, coffee table).

Step 4: Generate Design Options

- KimAI Design will provide a breakdown of your query based on your inputs.

- Receive 3 curated images from your imagined redesigned room. ***Who else can do this?***

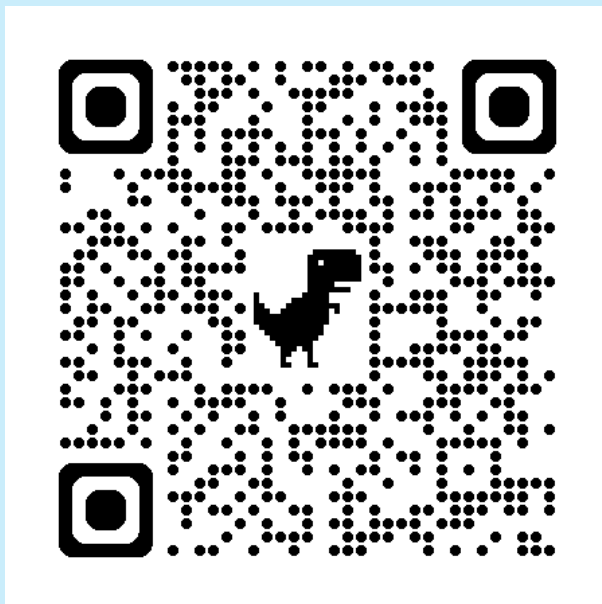

Step 5: Listen and Share

- Listen to the audio file detailing the image query.

- Share the images and audio with clients or friends for feedback.

- Just Select, Copy, Share! It's just like sharing a file on your computer.
