Knowledge Synthesis College Edition

Step-by-Step Instructions to a new study experience:

Step 1: Open Knowledge Synthesis

• Launch the Knowledge Synthesis app on your device.

Step 2: Upload Your Document

• Click on the "+" sign inside the module at the top of the app that reads "Upload your document here."

Upload files t	from your computer.
Supported fi	le formats
	+
Drag ar	nd drop your files here to upload them.
	50 Mb max file size.

- Choose the file you want to study.
- Hit the "Submit" button. Only one document can be uploaded at a time.

Step 3: Take the Quiz

- The app will provide a 10-question quiz based on the contents of the document.
- Answer the questions to test your knowledge.

10 question quiz

1. When did medical education start at the Schola Medica Salemitana? 2. What were the teaching mate als used in medieval universities? 3. Who wrote the book 'De humani corp febrica" and shat was its significance? 4. What infectious diseases were observed and documented by physicians in the 16th to 18th century? 5. Step 4: Review Content Analysis

• Review the comprehensive content analysis provided by the app.

Content Analysis

The context information provided is a section from a manuscript or article discussing the history and development of medicine, specifically focusing on the transition to "exact medicine" in the 1990s. The authors mention the use of empirical knowledge and postmortem autopay in clinical treatments prior to the 1990s, and highlight the advancements in accurate diagnosis through medical imaging, evidence-based medicine, and informed consent. They also mention the four characteristics of exact medicine, which include in vivo visualization, scientific verification, partnership with patients, and cooperation in clinic.

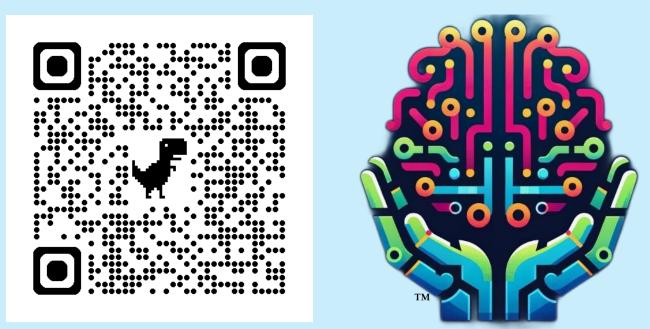

• Study the list of references from the document.

References The references mentioned in the context information are: 1. Foucault, M. The Birth of the Clinic: An Archaeology of Medical Perception: Vintage Books: New York, NY, USA, 1994.

2. Ackerknecht, E.H. A Short History of Medicine: Ronald Press: New York, NY, USA, 1955. 3. Sakai, T. History of medical education in Europe (1)—Education in the western traditional medicine before the 18th century.

Step 5: Happy Studying!

- Enjoy the tailored study tools.
- Share your personalized learning story with others.
